
- Allocation months: April/May and October/November Average cost of each release: $100- $150 (+ tax where applicable)
- You will be notified by email for each allocation, including the "pick up" and the "ship out date"
- Credit card will be charged for wine on the pick-up date. Shipping will be charged at the "ship out date". State laws require the recipient must be 21 to sign for the package as alcohol is involved.
- Wine not picked up after a full year will be shipped automatically assuming we have valid contact and credit card information. If you cannot be contacted regarding this, your wines will be donated.
- We strongly encourage use of a business address for shipping. Any wine that is returned to us will be held in our storage facility until you can come to pick it up or incur a re-ship fee if necessary.
